Relationships

It is deliberate that these are quite similar

- Asset Owner
    - Trusted Technical Expert
    - Trusted Independent Project Validator
    - Support Operations

- Project Delivery
    - Specialist Technical Expertise
    - Independent Project Validation
    - Calcs and Settings

Change

- Training
  - Training Needs Analysis
  - Package development
  - Training Delivery
  - Training Effectiveness
- Change and Transformation
  - New Technology
  - Impact analysis
  - Onboarding
  - Leadership Development

Working with new technology usually drives some level of Change Management and Training.

While Blue Sky didn't set out to develop this skill, we found we needed it, can do it, and we like it.
